Saqib Uzair

Summary

LinkedIn - GitHub - PortfolioMobile: $+92\ 3130381340$

MERN Stack Developer with hands-on experience in building full-stack web applications using Node.js, Express.js, React, and MongoDB. Skilled in front-end interfaces, back-end APIs, and modern JavaScript (ES6).A strong team player eager to contribute and grow in a dynamic development environment.

Education

B.E In Computer Systems Engineering

Sep 2019-Dec 2023

Email: saqibuzair99@gmail.com

Mehran University of Engineering and Technology

Professional Experience

• MTC (Mahaveer Tuition Center), Mirpurkhas

Computer Operator, 1 Jan 2024- 31 July 2024

- o Managed daily computer operations, including data entry, record maintenance, and printing of academic materials for students and staff.
- o Assisted teachers and students with basic IT support, ensuring smooth use of educational software and digital resources.

• EcodeCamp (Pvt.) Ltd · Internship

Python Programmer, 1 Aug 2024- 30 Nov 2024

- Developed Python applications like a CLI calculator and To-Do list app using functions, conditionals and file han-
- Applied Object-Oriented Programming (OOP) principles to structure and optimize code.
- Utilized Git and GitHub for version control and collaborative development.
- Gained practical experience in problem-solving, debugging, and basic project deployment.

• Internship at Koder360, Karachi

Back-end Intern, 6 Jan 2025 - 6 Apr 2025

- Developed and maintained RESTful APIs using NestJS and TypeScript.
- Built CRUD operations connected to PostgreSQL database.
- Wrote unit tests and conducted API testing using Postman.
- Collaborated with frontend and backend teams using Git.

• Freelance Apr 2025 - Present

• Delivered freelance software and web development projects, including responsive websites and custom tools, using technologies like JavaScript, Python, and MySQL.

Projects

• IoT Based Multi Crop Disease Detection System

Final Year Project

- o Designed an IoT-based multi-crop disease detection system using deep learning with Python, TensorFlow, and Flutter for real-time mobile prediction.
- Handled UI design, IoT-device communication using Python, and developed a MySQL database to store image snapshots.

• Blood Bank Management System

HTML, CSS, Javascript, Node.js

o Developed a Blood Bank Management System with secure CRUD operations, real-time updates, and a user-friendly interface.

• Book Management System

Typescript, Nestis, PostgreSQL

• Developed a system to manage books with features like adding, updating, viewing, and deleting book records.

• ATM Simulation

• Created a console-based ATM simulation that allows users to check balance, withdraw, deposit, and exit using JavaScript.

• Weather App Using Open-Meteo-API

HTML, CSS, Javascript

o Developed a weather application that fetches and displays real-time weather data using the Open-Meteo API.

Skills and Expertise

• Languages: Javascript, Typescript, Python, HTML, CSS

• Frameworks: NodeJs, NextJs, Express, NestJs, React

• Databases: MYSQL, PostgreSQL, MongoDB

• Concepts: Data Structure and Algorithm, DBMS, Operating System, OOPS

• Tools: Visual Studio Code, PyCharm IDE, Postman, Git/GitHub
